Typical applications: edge lighting in industry advertising | small spatial letters

SideV₆₀₀ is a professional stripe with 600 diodes per 5m roll. Thanks to the high number of diodes, it provides strong and side view illumination. It is ideally suited for illuminating light boxes, POS systems, furniture and interior elements. Double-sided 3M VHB™ industrial adhesive tape on the back is used for assembly. The SideV₆₀₀ stripes are powered by a 12 VDC power supply and have a 3 year warranty.

TECHNICAL DATA

Type	SideV ₆₀₀			
	W80K	W60K	W40K	W30K
Symbol	T930200	T930160	T930130	T930110
Color	white	white	white	white
Voltage [V DC]	12	12	12	12
Current [mA/1m]	830	830	830	830
Power consumption [W]	10	10	10	10
Luminous flux [lm]	1100	1100	1100	1100
Light output [lm/W]	110	110	110	110
Beam angle [°]	120	120	120	120
Protection degree	IP20	IP20	IP20	IP20
Color temperature [K]	8000	6000	4000	3000
Wavelength [µm]	-	-	-	-
Operating temperature [°C]	-10 - +40	-10 - +40	-10 - +40	-10 - +40
LEDs	SMD3014	SMD3014	SMD3014	SMD3014
LED quantity [pcs/m]	120	120	120	120
Partial [cm]	2,5	2,5	2,5	2,5
Lifetime [h]	30.000	30.000	30.000	30.000
Warranty [months]	36	36	36	36
Packing [m]	5	5	5	5

CONSTRUCTION

Supply method: The maximum length of the section fed in series is 5m.
On request, possible sections: 30m or 50m
